### WHAT WE OFFER

- Executive Exposure
- Speakers
- Mentoring
- Skills Building
- Panel Discussions
- Networking
- Interactive Workshops

The Women in Technology (WIT) YoPros Program **provides young professional women ages 20-29 with the network, the tools and the skills to excel as they transition from student to professional.**

WIT does this by connecting young women with experienced executives who provide guidance, mentorship and coaching in a supportive and social environment. WIT is committed to empowering and inspiring future generations of women leaders and building inclusive environments that drive innovation and show women the art of the possible. No matter where you are in your growth and development, WIT is committed to supporting women and providing programs and events that help you continue to grow in your technical and leadership skills. WIT YoPros empowers young women to engage with each other and the larger WIT community in order to reach their full potential in a STEAM career. Women supporting women. This is what we are all about.

WIT

EMPOWERING GIRLS & WOMEN  
TO EXCEL IN STEAM EST 1992
